

FINANCIAL AID INFORMATION //

APPLICATION DEADLINE

Returning families: March 15th
New families: At time of application

Once these deadlines have passed, families can still apply for aid. However, families applying after the deadline should understand that financial aid may no longer be available, and it may not be possible to extend an offer by the time enrollment contracts are due.

FINANCIAL AID PROGRAM

The Auburn School has a strong desire to serve all students and families who can benefit from our program. To assist families that may not otherwise be able to consider Auburn, we are dedicating a significant portion of our operating funds to support a generous financial aid program. We expect approximately 20–25% of students will receive tuition assistance, with average grant awards of about \$7,500–\$10,000. We also expect to offer a limited number of scholarship grants covering up to 75% of tuition and fees.

Tuition assistance awards are determined through a careful analysis of a family's complete financial situation, including all sources of funds available to contribute to the child's education. In order for us to allocate our resources wisely and fairly, we receive input from Independent School Management's Financial Aid for School Tuition (FAST) program. FAST does not decide whether financial assistance will be given or how much to give; rather, it provides a need-based financial aid analysis service. FAST provides the school with objective reports on each family's financial situation. Applications, and the FAST report, are reviewed by Auburn's confidential Financial Aid Committee, which determines the allocation of financial aid resources.

When making your application, please recognize the following:

- Auburn makes all admissions decisions without regard to socio-economic status or financial circumstances;
- Available tuition assistance funds are limited, which may prevent full funding of the demonstrated need;
- Information you submit to Auburn and FAST may be shared with the Auburn Scholarship Fund to evaluate whether or not your child is eligible for assistance from the Auburn Scholarship Fund;
- While FAST provides certain information to us, final award decisions are made at the sole discretion of Auburn's Financial Aid Committee;
- Auburn Scholarship Fund grants are made at the sole discretion of Auburn's Scholarship Fund Committee;
- Families must reapply for financial aid each year; and
- Auburn cannot guarantee the continued maintenance of financial aid levels from year to year.
- Families will be required to repay any financial aid award should the application information be found to be incorrect and/or falsified or if funding is provided by another program i.e. school district placement funding.
